Organization:	<u>MANIT Bhopal</u>	University of Malta, Malta	RCC Institute of Info. Technology, West Bengal University of Technology
Comments / Suggestion (if any):	It is very easy to simply expand education but the real challenge is to produce quality education. And that of course depends upon a huge amount of personal effort. Personal efforts of the teachers, having conceptualised the whole thing and made this possible is praiseworthy. MSIT provides a beacon of what is possible through purely private effort.'	It is indeed pleasure to have the opportunity to visit the University and interacting with students and faculty member here.	I have seen many universities - private universities, deemed universities and Government universities. In a place like Raipur, MSIT is a sprawling department with all types of modern facilities and a wide range of disciplines, all at one place.
