Venue- Remote Centre MSIT Department, MATS University Raipur

Speakers- Mr. Samir Gupta, DGM, Bhilai Steel Plant, Bhilai CG

Topic- Role of Information Technology in Manufacturing, Business and Networking Industries.

On 26 June 2019, Mr. Samir Gupta addressed a guest lecture on “Role of Information Technology in Manufacturing and Networking sectors”. Mr. Samir Gupta is currently working as DGM at Bhilai Steel Plant and is also an alumni of NIT Trichy. It was organized for all students of BSc, BCA and MCA students of MSIT Department. The speaker interacted with students and had a discussion with them on some important topics. He said that Manufacturing has emerged as one of the high growth sectors in India. Businesses will increase their efficiency when they embrace Information Technology. The primary goal of a business is to serve its customers. In this age of information technology, a business can gain the competitive advantage when it uses information technology to its maximum. Today perfect service is only possible if a business has the right information in the hands of the right people at the right time and this can only occur through the appropriate use of information technology. He specially focused on the utilization of IT in manufacturing industries. He also focused on skill enhancement and personality development. During his talk, he said that personality and good communication are key elements of success. He stated that to change or grow your position and need to refresh your skills. There was an interaction session with the students in which they asked some interesting questions of the speaker. Finally, the seminar ended with the presentation of a memento to the invited speaker by HOD Ms. Rita Dewanjee.
