

Expert Talk on Data Analysis

One day workshop was organized by MATS School of Information Technology, MATS University Raipur (C.G.) on “data Analysis” 28.02.2018. The conveners of the workshop were Mr. Nitin Tiwari. He discussed about Data Analysis. He explained that Data Analysis is the process of systematically applying statistical and/or logical techniques to describe and illustrate, condense and recap, and evaluate data. An essential component of ensuring data integrity is the accurate and appropriate analysis of research findings.

The Objective of the Seminar was to give some idea about, The process of inspecting, cleansing, transforming, and modeling **data** with the **goal** of discovering useful information, informing conclusions, and supporting decision-making.
